

K-LOVE radio, through FM translators, is a great medium for me to stay connected nationally and locally to a team committed to serve. If it were to be displaced by an LPFM broadcaster providing other programming, people of this community would be completely disconnected from this valuable music and message resource. K-LOVE shares a safe listening medium for our children, as well as a point of common interest for our entire family. Please do not move forward with a resolution which could eliminate a valuable source of connection for me, my family and my community.
